

IN THE CLAIMS:

Cancel claims 1 to 21 without prejudice or disclaimer and  
add new claims 22 to 26 as follows:

48  
22. (New) A low reflective antistatic hardcoat film  
comprising:  
a transparent substrate film;  
a transparent conductive layer formed on the transparent  
substrate film;  
a hardcoat layer formed on the conductive layer; and  
a low refractive layer formed on the hardcoat layer,  
the low refractive layer having a lower refractive index  
than the hardcoat layer, the hardcoat layer comprising a  
plurality of layers.

23. (New) The low reflective antistatic hardcoat film  
according to claim 22, wherein fine irregularities are formed on  
a surface of the hardcoat layer and/or a surface of the low  
refractive layer.

24. (New) The low reflective antistatic hardcoat film  
according to claim 22, wherein the hardcoat layer is conductive.

25. (New) The low reflective antistatic hardcoat film  
according to claim 22, wherein the hardcoat layer comprises the  
reaction product of a reaction curing resin composition.

26. (New) The low reflective antistatic hardcoat film  
according to claim 22, wherein the hardcoat layer has a high  
refractive index.
